

Regional Acute Pain Service (RAPS) CA-3 Resident Evaluation

Evaluator: Subject:

Status:

Rotation:

Does not meet expectations = Often fails to meet expectations, or performance has been seriously deficient

Meets expectations = Usually meets expectations, demonstrates improving performance

Exceeds expectations = Consistently meets and often exceeds performance expectations

ACGME stipulates that "**Residency programs must require its residents to develop competencies in six areas to the level expected of a new practitioner.**" To that end, this performance evaluation is based on the six core competencies (Competency definitions are listed in the curriculum section of NI. Residents will be notified to read the competencies at the beginning of each subspecialty rotation).

PRIVILEGED AND CONFIDENTIAL UNDER THE ILLINOIS MEDICAL ACT

PATIENT CARE

Facilitates the overall functioning of the acute pain service by arriving prior to 6:45 a.m. and preparing an accurate acute pain patient consult list and inpatient census list with all vital signs recorded:

Does Not Meet Expectations	Meets Expectations	Exceeds Expectations	Not Observed
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Expediently performs a directed pre-anesthesia consultation, formulates a safe and effective perioperative analgesic plan, and obtains anesthesia consent in a timely fashion to ensure that surgical cases are not delayed:

Does Not Meet Expectations	Meets Expectations	Exceeds Expectations	Not Observed
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Neuraxial block technique (able to routinely perform thoracic epidural and other neuraxial block procedures with attending supervision but minimal attending intervention):

Does Not Meet Expectations	Meets Expectations	Exceeds Expectations	Not Observed
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Peripheral nerve block technique (able to perform routine and continuous peripheral nerve block procedures with attending supervision but minimal attending intervention):

Does Not Meet Expectations	Meets Expectations	Exceeds Expectations	Not Observed
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

KNOWLEDGE

Possesses knowledge of pain physiology, analgesic pharmacology, and regional analgesic techniques necessary to safely perform acute pain medicine:

Does Not Meet Expectations	Meets Expectations	Exceeds Expectations	Not Observed
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Able to apply knowledge appropriately to clinical situations (including management of inadequate analgesia, side effects and complications of analgesic techniques):

Does Not Meet Expectations	Meets Expectations	Exceeds Expectations	Not Observed
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

PRACTICE-BASED LEARNING & IMPROVEMENT

Motivated to learn and improve (participates in all teaching conferences, reads and asks questions, seeks feedback):

Does Not Meet Expectations	Meets Expectations	Exceeds Expectations	Not Observed
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Prepared and communicated a lecture for morning conference commensurate with the level of training:

Does Not Meet Expectations	Meets Expectations	Exceeds Expectations	Not Observed
----------------------------	--------------------	----------------------	--------------

Analyzes success and demonstrates effort and consistent improvement in performing regional analgesic procedures:

Does Not Meet Expectations Meets Expectations Exceeds Expectations Not Observed

INTERPERSONAL & COMMUNICATION SKILLS

Demonstrates the ability to work effectively with supervising faculty, surgeons, fellow residents, nurses and ancillary personnel:

Does Not Meet Expectations Meets Expectations Exceeds Expectations Not Observed

Generates thorough, neat and accurate patient records and procedure notes:

Does Not Meet Expectations Meets Expectations Exceeds Expectations Not Observed

Effectively and concisely explains all risks, benefits and alternatives to prospective pain patients prior to instigating the process of informed consent; communicates effectively, engendering confidence in patients and families:

Does Not Meet Expectations Meets Expectations Exceeds Expectations Not Observed

PROFESSIONALISM

Adheres to an acceptable dress code when assigned to care for patients in preoperative areas, on medical and surgical wards, and in the postoperative and intensive care units:

Does Not Meet Expectations Meets Expectations Exceeds Expectations Not Observed

Conducts activities in a manner that is conducive to fostering a respectful collegial attitude between the Anesthesia Acute Pain Service and other patient care services (i.e., surgery, medicine, gynecology, nursing):

Does Not Meet Expectations Meets Expectations Exceeds Expectations Not Observed

Demonstrates adherence to ethical principles; honesty and integrity; respect for privacy; concern for patients:

Does Not Meet Expectations Meets Expectations Exceeds Expectations Not Observed

Demonstrates a genuine commitment to carry out professional responsibilities (is consistently punctual and available, carries out assigned duties):

Does Not Meet Expectations Meets Expectations Exceeds Expectations Not Observed

SYSTEMS-BASED PRACTICE

Efficiency in practice (able to work efficiently; cooperates with members of patient care team):

Does Not Meet Expectations Meets Expectations Exceeds Expectations Not Observed

Demonstrates awareness of care-related costs:

Does Not Meet Expectations Meets Expectations Exceeds Expectations Not Observed

OBSERVATION OF TECHNICAL SKILLS (required)

Please describe procedures supervised, e.g. type and number of procedures performed, and success rate.

Comment

Remaining Characters: 5000

WRITTEN COMMENTS (required)

Please explain any "Does Not Meet Expectation" rating.

Comment

Remaining Characters: 5000

Please provide at least one area that the resident would benefit by improving.

Comment

Remaining Characters: 5000

Please document at least one area in which the resident excels or is best at.
