

Resident Self-Evaluation of Academic & Clinical Performance

Evaluator: Subject:

Status:

In an effort to track your professional development during your matriculation in the residency program, and as part of ACGME's core competency evaluation process, the Clinical Competence Committee (CCC) requires that you complete a **Self-Evaluation of Academic & Clinical Performance** every six months. The feedback you provide in the self-evaluation will be reviewed by the CCC and will contribute to your CCC quarterly evaluation and your six-month ABA competency report. In addition, faculty may refer to your self-evaluation to help them write your letters of recommendation.

Completion of the self-evaluation questionnaire is **mandatory**.

Please answer the following questions as thoroughly as you can. Your information will be sent to your faculty mentor and the CCC. In addition, your mentor will meet with you to review your self-evaluation when the January and July quarterly evaluations are discussed. Lastly, your self-evaluation will be placed in your resident file and can be accessed or copied at any time. (Please e-mail supporting documents to Brian DesGranges, brian.desgranges@nmff.org).

What experiences impacted your education (positively or negatively) during the last six months (*List at least 3*)?
