Presenting

The Future of the Practice of
Cardiovascular Medicine and Surgery

Course Directors:

Charles J. Davidson, MD
Patrick M. McCarthy, MD
Clyde W. Yancy, Jr, MD, MSC

Sponsored by:
Bluhm Cardiovascular Institute of
Northwestern Memorial Hospital
Northwestern University
Feinberg School of Medicine and
Office of Continuing Medical Education

General Information

Learning Objectives

At the conclusion of this activity, participants should be able to:

1. Review the available evidence and best practice guidelines for patients presenting with cardiovascular disease.
2. Examine the latest data to determine when to refer a patient for surgical or interventional treatment options.
3. Assess the advantages and limitations of current medical, surgical and interventional therapies for patients with cardiovascular disease.
4. Compare and contrast the utility of various diagnostic and imaging techniques for cardiac diseases such as valvular or coronary heart disease.
5. Design treatment and surveillance strategies to manage patients presenting with various cardiovascular disease.

Target Audience

This continuing medical education program is designed to meet the educational needs of physicians who participate in the care of adult patients that are at risk for cardiovascular disease. This includes cardiologists, CT surgeons, family practitioners and internists. Advanced practice nurses, physician assistants and other medical professionals.

Conference Location

The program will be held in the Conference Room L, on the third floor of the Prentice Women's Hospital, located at 250 E. Superior Street, Chicago Illinois. For directions and parking information, please visit prentice.nmh.org.
