MedResidences is the only housing locator service created specifically for medical professionals.

We help medical professionals make informed housing choices in order to find their ideal home and the best value for their money, whether they are looking to rent (long or short-term), buy, sell, invest, or sublet. We also specialize in relocation services.
MedResidences is a sister company to StudentSpace, a company founded by former graduate students that struggled to find their own apartments and homes while at graduate school. They realized there was the exact same demand for a housing service dedicated to medical professionals. Thus far, residents, doctors, nurses, fellows, and hospital staff seem to agree.

Our close relationships with hospitals allow us to help medical professionals directly in their search for new homes. We study the city’s neighborhoods, transportation and available housing options, negotiate with building owners and provide unbiased information to help medical professionals find the right home.

We inspect each of our buildings to ensure that they meet our high standards. We find you the best values and buildings for your money, whether you’re looking for a studio, convertible, loft, one, two or three bedroom apartment. Some of the buildings we work with also offer medical professional specials.
OUR PROCESS

1. Contact us by telephone, email, Skype or by visiting our website. We are here to answer your questions about buildings, prices, transportation, parking, neighborhoods, shopping or anything else! We will provide advice for your particular living needs, hospital locations and budget.

2. Tour with us to visit properties and see for yourself the great homes and lifestyles for you. We will show you the best buildings and neighborhoods for your specific needs. If you aren’t able to visit Chicago to tour with us, we can review your housing options with you remotely. If you plan on touring properties more than two months prior to your expected lease date, please note that some buildings may have to put your name on a waitlist.

3. Sign a lease directly with the buildings. We will help answer your questions about the lease terms and the leasing process. We can also help you sign a lease remotely if you are unable to do so in person.

You haven’t really seen Chicago until you’ve visited some of our many distinct and culturally diverse neighborhoods. They are fun to explore and many are just minutes away from downtown on public transportation.
