Office of Alumni Relations HOST Program

The Office of Alumni Relations is pleased to offer the Help Our Students Travel (HOST) Program. The program was created to assist medical and graduate medical students as they interview for residencies following medical school or as they relocate once they have finished their residencies and begin the process of starting their practice. Medical school alumni from across the country have volunteered their time, their knowledge, and even their homes. Their generosity makes this program possible.

OSR - Airline Discounts for Residency Interview Travel

2006-07 AAMC Airline Discount Program for Medical Students Interviewing for Residency Positions

The Association of American Medical Colleges has an agreement with American Airlines to offer discounts for senior medical students traveling to interviews for residency positions. The program is for senior students at AAMC member institutions only; misuse of the program jeopardizes the AAMC's chances of providing a similar program in the future.
