July 28th - 30th, 2019

Feinberg's student-run pre-orientation program about public health and community partnership in Chicago.

A COMMUNITY OF ENGAGED PEERS
"I absolutely loved it! Given this opportunity to intimately get to know my classmates with similar interests, I feel like my whole experience at Feinberg would not be the same without DC."

Participant, DC 2018

A DIFFERENT SIDE OF CHICAGO
"Destination Chicago gave me an intimate exposure to Chicago’s social landscape. We visited local organizations providing much needed services to Chicagoans, and this exposure gave me a better framework to understand the challenges my future patients would face. I learned about community needs and how medical students can be involved in healthcare innovation."

Ian Hollyer, DC 2016

A LENS INTO ADVOCACY
"This opportunity helped solidify my desire to incorporate public health & advocacy into my future career - it was really interesting to learn first hand about both the community and policy work of many public health organizations in Chicago!"

Sim Chadha, DC 2017

APPLY BY JULY 1ST!
