Clinical student has exposure\(^1\) OR symptoms

Call COVID-19 hotline 312.47.COVID AND inform Dr. Sanguino

Asymptomatic

Student masked\(^2\) and Case masked\(^4\) OR Student masked and goggles and Case NOT masked OR Student masked without goggles and Case NOT masked < 15 min OR Student NOT masked and Case masked OR Student Not masked and Case Not masked < 15 min OR AGP\(^6\) with student wearing appropriate PPE (N95 respirator, eye protection, gown, AND gloves)

Symptoms have improved or resolved

Call Covid-19 hotline, the hotline RN will have corporate health contact student for return to work clearance\(^7\)

Symptomatic

- Do not report to work
- If symptoms present at work cease patient care activities, call COVID-19 hotline, inform Dr. Sanguino

ACTION
- Furloughed from work for minimum of 14 days from when the case was first symptomatic unless otherwise directed by Corporate Health
- Call Covid-19 hotline to begin return to work process

ACTION
- For 14 days after last exposure participate in twice daily temperature\(^5\) and symptom monitoring through electronic system
- Covid-19 hotline will provide instructions for post-exposure testing (typically 5-7 days after exposure)
- Complete employee incident report
- Continue to work unless symptomatic and/or test positive for Covid
- Routine screening and follow universal masking guidelines

NO NEW ACTION REQUIRED
- Continue routine employee screening at clinical facilities
- Follow universal masking guidelines

\(^{1}\) Exposure = being in contact on day minus 2 through day 14 (with day 0 being first day of clinical symptoms) with a COVID-19 positive person without wearing appropriate PPE (mask, goggles or face shield, gown, and gloves). Contact = within 6 feet for routine care, or present in the same room during AGP\(^6\), or entering room within 35 minutes of an AGP in airborne infection isolation (All) room or within 70 minutes in non-All room, all without PPE, or direct contact with contaminated fomites without performing hand hygiene prior to touching eyes, nose, or mouth.

\(^{2}\) Student masked = surgical mask, procedural mask, N95, or powered air purifying respirator

\(^{3}\) Case = Person with laboratory confirmed Covid-19

\(^{4}\) Case masked = cloth mask or surgical mask

\(^{5}\) If temperature $\geq 100.0$ and/or symptoms (respiratory or GI) call COVID-19 hotline and do not report to work.

\(^{6}\) AGP = aerosol generating procedures including endotracheal intubation/extubation, non-invasive ventilation, tracheotomy, CPR, manual ventilation, bronchoscopy, airway suctioning, sputum induction, chest PT, nebulizer treatment.

\(^{7}\) Students require clearance from Corporate Health prior to returning to work. Per current CDC guidelines healthcare workers (HCW) should be afebrile for 24 hours without use of medication and symptoms are improving and if diagnosed with COVID-19 it has been at least 10 days since onset of symptoms. Guidelines may differ for hospitalized and/or immunocompromised HCWs.
