Please join

U.S. SENATOR DICK DURBIN
and
NATIONAL INSTITUTES OF HEALTH
DIRECTOR FRANCIS COLLINS

for a conversation on

Biomedical Research Funding

U.S. Senator Durbin invites you to attend a discussion with National Institutes of Health (NIH) Director Francis Collins, M.D., Ph.D., and leaders from local universities on the importance of funding for biomedical research.

Senator Durbin has called for an increased investment in biomedical research to provide steady, predictable funding for breakthrough research to preserve America’s role as a global leader in innovation and discovery.

Dr. Collins is a physician-geneticist noted for his landmark discoveries of disease genes and his leadership of the international Human Genome Project. As Director of NIH, he oversees the work of the largest supporter of biomedical research in the world, spanning the spectrum from basic to clinical research.
