

T35 Summer Research Program for Medical Students

A Gateway to a Clinician-Scientist Career

Project Guidelines

- If your project were a grant, would it be funded by NIDDK?
- Majority of slots need to be NIDDK centered projects.
- Reach out to us to help you identify a project that fits the criteria.

Summer 2026

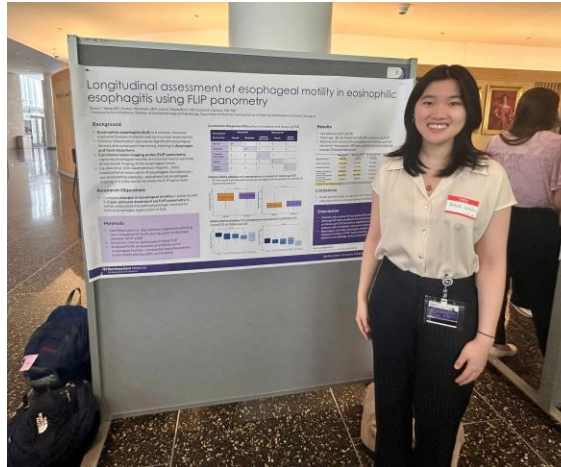

Program Key Features

Program Dates: **May 17, 2027 – July 9, 2027**

- Protected daily research time in PI's dry or wet-lab
- 35 lectures (e.g., how to write abstracts, biostats, how to become a clinician-scientist, NIDDK focused research)
