Fellowship Position in Perinatal and Women’s Mental Health

Asher Center for the Study and Treatment of Depressive Disorders

Department of Psychiatry and Behavioral Sciences

Northwestern University/Feinberg School of Medicine

Chicago, Illinois

The Department of Psychiatry and Behavioral Sciences is seeking two full-time psychiatrists for a one year fellowship in Perinatal and Women’s Mental Health to join the faculty of a strong, multidisciplinary program in a medical center academic department. The candidate will join a rich, collaborative environment with other clinicians and scientists in the Feinberg School of Medicine and throughout the University. This individual should have a strong clinical background with experience in the diagnosis and treatment of acute and chronic mental disorders. This position presents opportunities to complement existing clinical and research initiatives in women’s and perinatal mental health. The selected candidates will have board eligibility in general psychiatry and be eligible for a medical license in Illinois. Clinical duties will include: patient care and teaching as well as participation in departmental activities and committees. The primary clinical site for outpatient care of women is our perinatal and women’s specialty program in the Asher Center for the Study and Treatment of Depressive Disorders, Katherine L. Wisner, MD MS, Director. Direct case supervision, educational time and presentation skill development is included. Completion of a scholarly project is expected. Fellows will have access to educational/academic funds, data management and statistical experts to support their various academic efforts, and the opportunity to participate in NIH-funded Center grant studies. This position will be a full-time one year appointment with the rank of Instructor in the non-tenure track, with the option to extend to two years. Position is open until filled. Salary is highly competitive.

Please send applications (a CV, one-page letter stating goals for the fellowship experience, and two persons who can be contacted as references) to: Barbara Sutcliffe, Asher Center, Department of Psychiatry and Behavioral Sciences, Northwestern University Feinberg School of Medicine, 676 North Saint Clair Street, Suite 1000, Chicago, Illinois 60611 or via email in a Word or PDF format to Ms. Sutcliffe at b-sutcliffe@northwestern.edu.

Northwestern University is an Affirmative Action/Equal Opportunity Employer. Hiring is contingent upon eligibility to work in the United States. Women and minorities are encouraged to apply.
