"Qualitative Methods Workshop for Community Partners"

This two-part session will provide an introductory overview of qualitative methods including types of qualitative data, tool creation, data collection methods, analysis, and provide opportunities to apply this learning through practice. The sessions will focus on qualitative methods most relevant to health-related community programming so there will be a heavy focus on preparing and conducting interviews. The second session will focus on learning from practice exercise experiences and analyzing interview and focus-group data. This training is designed to be completed as a set, with learning from the first session applied and revisited in the second session. The sessions are highly interactive and practice exercises will be assigned for completion on your own during the week between sessions.

This series is open to everyone but designed for community organizations. This training is co-hosted by Northwestern's [Alliance for Research in Chicagoland Communities \(ARCC\)](#) and [Buehler Center for Health Policy and Economics](#) and will be led by [ARCC Steering Committee](#) Member Sarah Welch, Director of [Evaluation Research](#) in the Buehler Center.

Apply Now for Open Positions at CCH

Research Study Coordinator Senior

This position is relationship oriented, and has a primary objective to develop, build, and support community and academic partners to conduct meaningful research related to COVID-19 testing in underserved and vulnerable populations, with a highlight on Hispanic communities. This position will work closely with [Dr. Namratha Kandula](#) on an [NIH funded research project](#) to coordinate community engagement activities across study sites, evaluate project outcomes from a stakeholder perspective, and lead and implement [Stakeholder-Academic Resource Panels \(ShARP\)](#).

To apply: Please search for opening 39390 to apply at <https://www.northwestern.edu/hr/careers/> View full job description [here](#).

Research Assistant, Part-time, Temporary

This position is a part-time position (1/day-week) for a Research Assistant with experience with qualitative analysis. This position sits within the Center for Community Health (CCH) and will work on the CENTRAL project, a study that is looking at the implementation of survivorship care for rural lung cancer survivors and their caregivers.

To apply: Please email CV/resume and cover letter to marquita.lewis-thames@northwestern.edu View full job description [here](#).

ARCC Seed Grant Info Webinar Slides and Recording Posted

The [Alliance for Research in Chicagoland Communities \(ARCC\)](#) recently hosted a [Partnership Development Seed Grant](#) Informational Webinar. This webinar provided background on the seed grant program, focus, review criteria and best practices from previous rounds. ARCC in partnership with the [Northwestern University Clinical & Translational Sciences Institute \(NUCATS\)](#) and [Northwestern Memorial Hospital \(NHM\)](#) will fund Seed Grants that support the development of partnerships that engage communities and stakeholders most impacted by health inequities in research collaboration with Northwestern research teams.

If you were unable to join, you can view the webinar [slides](#) and [recording](#).

The Center for Community Health is supported, in part, by the
Northwestern University Clinical and Translational Sciences Institute, Grant Number UL1TR001422 from the National Center for
Advancing Translational Sciences, Clinical and Translational Sciences Award
and the
Institute of Public Health and Medicine (IPHAM).
