

Faculty Position in the Feinberg School of Medicine and Center for Synthetic Biology @ Northwestern University

The Center for Synthetic Biology and Department of Cell & Developmental Biology at Northwestern University Feinberg School of Medicine invites applications for a full-time tenure track Investigator at the rank of Assistant Professor. Responsibilities include establish an extramurally funded basic or translational research program that applies synthetic biological approaches to solve questions related to cell and/or developmental biology. Ideal candidates should also demonstrate strong communication and leadership skills, and actively contribute to the rapidly growing Center for Synthetic Biology. Formally launched in 2016, the Center for Synthetic Biology represents a university-wide initiative to formalize and grow synthetic biology as a research theme.

Qualified candidates will have a Ph.D., M.D./Ph.D. or M.D. degree, significant research experience, and evidence of sustainable extramural funding. We enthusiastically invite applications from women and underrepresented minority groups. Salary is commensurate with experience. The start date is negotiable and the position will remain open until filled.

When applying, please upload a cover letter describing your interest and alignment with the position, your CV, a research statement (not longer than 5 pages), and a list of individuals (3 minimum) who could be contacted for references.

Please read ALL instructions and make preparations before proceeding to the application page:

- Applications will only be accepted via online submission (see link below).
- Please prepare all documents in advance as Adobe PDF files, and please be sure all information is entered correctly and accurately (especially names and email addresses), as there will be no opportunity for online revision after your application has been submitted.
- All required fields in the application form are marked with an asterisk and must be filled before clicking the "Submit" button.
- Be aware that incomplete applications cannot be saved.
