

Discussion Questions

Common Core Suggestions:

- *Have students group up (3-4 students per group) and create posters using the discussion questions below*

- *Some groups can create posters about the symptoms while others can make one about what to do if someone is having an allergic reaction. Have student groups get up in front of their peers and present the information.*
- *Have students turn and talk with a partner or group about the questions below or assign groups of students a question and have them present their findings to the class.*

1. What do you think about food allergies?
2. Do you know anyone with food allergies?
 - a. If yes, what type of allergies?
3. Did you learn anything new from the video?
4. Do you think food allergies can be serious?
 - a. What are some signs of a serious reaction?
5. How can you support your classmates with food allergies?
6. Where in our school or classroom should we be extra cautious about cross-contact?
7. How can we spread the word about food allergies in our community?
