

Discussion Questions

Common Core Suggestions:

- *Have students group up (3-4 students per group) and create posters using the discussion questions below*
 - *Some groups can create posters about the symptoms while others can make one about what to do if someone is having an allergic reaction. More than one group can make a poster using the same topic. Have student groups get up in front of their peers and present the information.*
1. What did you learn about food allergies in the video?
 2. What are some signs of a serious allergic reaction?
 3. List the steps to treat someone with a serious allergic reaction.
 4. How can you support your classmates with food allergies?
 5. What situations at school might be difficult for someone with food allergies? At a restaurant? At a sports event? In an airplane? At home?
 - a. Why?
 - b. How could these settings be made safer for those with food allergies?
 6. How can we spread the word about food allergies in our community?
