

SeqCoast is an expert-guided genomics center

We specialize in microbes and other small genomes

We provide full end-to-end support:

- Experimental design consulting
- Bead-beating DNA extraction
- Illumina short reads
- Oxford Nanopore long reads
- Standard and custom bioinformatics analyses

Examples of services offered:

- Genome assembly and annotation
- RNAseq
- Amplicon sequencing (16S, ITS)
- Strain typing
- Dedicated flow cell runs
- Custom sequencing options

Typical turnaround time <15 days!

No sample minimums!

Custom pricing on orders with >48 samples!

We provide fast insights and friendly service!
